NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

According to a story in last week's Stamford American the people of Stamford are seeking a branch depot to be set up in Stamford for distribution of surplus commodities to needy persons. The appeal was made to the Jones County Commissioners Court.

The group was assured that if the mechanics could be worked out the commissioners would recommend to the welfare office that the plan be set up.

In making the appeal, Dr. Ike Hudson, who acted as spokesman for the group of Stamford citizens, told of a recent meeting of elderly persons where only five of the 32 present could drive a car.

"It is these people we have in mind," he said, going on to add that "People who need it most are the ones who cannot get to Anson and they are the ones we are interested in."

We are wondering if a similar situation does not exist here in Hamlin and if such a branch depot should not be set up here if there is enough interest.

County Commissioner Tom Boyd of Stamford has offered to transfer the food items to Stamford. The city will provide the storeroom and other needed facilities. A refrigerator will be obtained for butter and perishables.

Dr. Hudson pointed out that this same plan is being carried on in Taylor County where commodities are distributed at regular intervals at Merkel. "This is nothing new," Dr. Hudson said, "I am sure that citizens of Mineral Wells are not going to Palo Pinto."

It would appear that it might be well if the Ministerial Alliance or the Hamlin BCD look into this and if there is a need then it should be presented to the County Commissioners. It would seem that if there is need for this service in Stamford there likely is such a need in Hamlin.

We were somewhat surprised at the court decision in Abilene last week that convicted Gus Mutscher and his two top associates of conspiring to accept a bribe. We had figured that they would probably end up with a hung jury in the case.

While the case is still subject to appeal, we suspect that it has ended the political career of Mutscher, at least as far as any statewide race is concerned.

What we need now is a complete, honest investigation into the whole stock scandal. Of course it is hard to come up with a full scale investigation when even the governor is involved. Of the three highest state officers, only Lt. Gov. Ben Barnes seems to not have been involved in the matter and since he is running for election as governor against Smith it makes it difficult for him to lead such an investigation.

While we need an investigation into the whole matter, what we don't need is a witch hunt.

We are already faced with the problem of too many people all too eager to assume that all elected officials are crooks and we suspect that the Abilene conviction has just added more fuel to this fire.

Our system of government can not work if the people do not have faith in it and the people they have chosen to run it. This does not mean that we should just look the other way but it does mean that we need to support the honest ones and get rid of those proven guilty.

Since the livestock industry is important to this area we feel that the following editorial written by Harold Hudson in The Perryton Herald is worth repeating.

Cecil Brown Issues Statement to Voters

Cecil Brown, candidate for Commissioner for Precinct 1, has issued the following formal statement:

"In having filed as a candidate for County Commissioner from your precinct I am making myself available to serve you in that all-important job. In your consideration of my candidacy, I would respectfully request that you consider my qualifications, my reputation and my character.

"I have lived in this precinct all my life. In 1936 I married Toad Rumfield who is a Licensed Vocational Nurse. We have two children, Mrs. John (Gwendolyn) Rowland of Lafayette, La. and Randy Brown of Hamlin. We are members of The First Baptist Church.

"I have worked for the County in your precinct under two different commissioners for a total service to the county of about nine years. During that time I was aware of the importance of the road system of the precinct and the service necessary to be furnished by the commissioner to the residents of the precinct. This all-important part of the commissioner's office will receive my unbounded efforts in order that the roads may be kept in the best condition possible within the present economic structure. I want to start a program to widen all the roads, not paved, eliminate many blind corners, that now are hazardous not only to individuals but to our school children riding school buses, and to pursue an over all improvement program.

"It is my plan that Precinct

1 be allocated its fair share of the farm to market roads to be built in the future. Another important phase of the commissioner's duties is tending to the business of the county. I think we all recognize that county government is one of the biggest businesses in the county which demands proper administration from the commissioner of each precinct. It is my judgement that the county business should be run as a business without fear, favor or control. I can honestly say to you, the voters of Precinct 1, that I will, in all situations arising with reference to the county's business, have the courage to vote my conviction after determining in consultation with my constituency the course of action which would most benefit from a practical standpoint the residents of our precinct.

"I feel that as commissioner I can give and receive full cooperation from all school districts, towns and villages, and communities within the precinct. It is my earnest desire that you will allow me by your vote to work with you for the betterment of our precinct and our county government.

"I will certainly be grateful for any efforts you may expend on my behalf and for your vote on election day."

Ewell Mackey Drops Out of School Race

Ewell Mackey, a candidate for re-election to the Board of Trustees of the Hamlin Independent School District, announced this week that he was withdrawing from the race.

Mackey said that although it was too late to have his name removed from the ballot he would resign if re-elected. He gave no reasons for withdrawing from the race other than that he had reconsidered and did not want to serve another term on the board.

Mackey's withdrawal from the race leaves four candidates seeking the three places on the board. Still in the race are W. T. Johnson, board president who is seeking re-election; Cecil Sellers, James Rodgers and Mrs. Bob Craig.

Absentee voting is now underway and the election will be held Saturday, April 1. Deadline for casting absentee ballots is Mar. 28 at 4 p.m. Ballots are available in the office of Mrs. J. O. Murphree, secretary to the superintendent.

Mrs. Dudley Reviews Book At Guest Day Tea Friday

Mrs. L. E. Dudley of Abilene, past president of the Texas Federation of Women's Clubs and past president of Mesquite district, TFWC, was guest speaker for the Friday afternoon Guest Day Tea hosted by the Woman's Literary Club at the Fellowship Hall of First United Methodist Church.

Mrs. Dudley reviewed "The Land of Beginning Gain," a book by Julien Hyer that traced the history of the Brazos River of Texas.

"The river," she said, "is shared by no other state. It flows from the high plains some 800 miles to the Gulf of Mexico."

She told the story of a couple, Juan and Maria, who were being pursued by Indians just as they reached the river which was rapidly rising from recent rains. The couple and their baby crossed the turbulent river only to have their wagon break apart. Maria worried for their safety but Juan could see that

the Indians and their horses could not cross the rapidly rising surging stream. He told Maria as he repaired the wagon, "We are safe in the arms of God." So the name became "El Rio de los Brazos de Dios," the river of the arms of God.

The colorful history of Texas surrounding the Brazos sketched by Mrs. Dudley. The first school on the Brazos, she said, was in 1503 when a priest schooled the Indians.

Stephen F. Austin, when choosing his settlers, she said, selected the men for leaders for their morality and sturdiness of character and the women for their ability to cook wild hog meat, stir hominy and use a rifle.

Mrs. Dudley was introduced by Mrs. Donald Young, president. Music during the tea hour was played by Mrs. E. E.

Monkres. Mrs. Jackie Williams gave the invocation.

Keven Mehaffey, daughter of Mrs. H. L. Mehaffey and 1971 graduate of Hamlin High School, was presented with a \$100 check for the club's annual scholarship by Mrs. Young. The recipient is announced at spring graduation and the award is given after she has successfully completed the first semester at the college or university of her choice. Miss Mehaffey attends Texas Tech University.

Members of the arrangement committee were Mmes. C. F. Cook, James Stewart and Claude McDonald. Refreshment committee members were Mmes. L. B. Bruner, Williams and Albert George.

The next club meeting will be Apr. 7 in the home of Mrs. Bruner. Mrs. Williams will be program director.

Except the worst weather and even then we don't stay down for long. The people who own and operate the Midwest Electric Cooperative pioneered rural electricity in the areas they serve. On those rare occasions when ice, tornadoes, or hurricanes damage the system, they have a backlog of skilled helpers, their own fine people, plus the 3000 skilled workmen employed by the other 76 member-owned electric cooperatives of the state. They help put us back in the saddle in a hurry.

Probably the last report of the cotton crop of 1928 was recently sent out from the Department of Commerce. The Texas crop for that year was 4,937,455 bales as against 4,229,367 for 1927. Culling about over West Texas Counties we find that Jones County received 41,020 bales compared to 63,974 for 1927.

Last week B. S. Ferguson, owner and manager of the Palace and Mutual Theatres of Hamlin, gave a demonstration of his new "Moviephone" Machine. NEWS AND VIEWS . . .

And What Have You
By BOB CRAIG

prices are high, and now there is a clamor for some reform in the market place in order to bring prices down for the consumer. The cattleman is being blamed for the rise in meat prices, and some politicians are looking around for some way to push back cattle prices.

They need to look somewhere else. Cattle prices are now just about what they were in 1952. Fat cattle are selling for around 39 cents a pound, same as twenty years ago. Yet a comparison a Nebraska cattle feeder drew from a study of newspaper ads in Hastings, Nebraska, shows that round steak sold for 98 cents a pound in 1952 and is now \$1.38 per pound. Hamburger was 49 cents in 1952 and is now 85 cents. Sirloin steak was 85 cents and is now \$1.63 a pound.

Since the price of live cattle is the same, surely the blame for increased meat prices can't be attributed to the man who raises cattle. Congressional inquiries should be directed at some of the other links in the marketing chain.

Neinda Philosopher Claims It Looks Like Ben Franklin Didn't Know What He Was Talking About

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One gets off into a deep subject this week and you can decide whether he makes it to shore.

Dear editor:

I've always contended that economists, like weather forecasters, are much better at telling you what happened yesterday than what's going to happen tomorrow, but now I'm beginning to doubt even that.

Or me and Benjamin Franklin are too far behind our times.

For example, I read in a newspaper last night which a March wind had blown against my front screen door and I pulled off because the fly season hasn't started yet anyway, that economists reported that the American public has demonstrated a grave lack of confidence in the economy by saving more money in 1971 than it has in any year in the last 25.

That's right. Economists, I understand, figure the more money a person saves, the less he spends, and the less he spends, the fewer the goods bought, resulting in a slow-down

in the economy.

Last year, the economists said, Americans saved 8.2 percent of their money, the worst, that is to say the highest, rate in 25 years. Any time they save more than 6 percent the economy's in danger, according to the experts' theory.

As I understand this, when Benjamin Franklin said a penny saved is a penny earned, what he was actually saying is that a penny saved is an attack on prosperity. When he said "neither a borrower nor a

lender be," he was undermining the national economy.

Ole Ben may have been ahead of his time in discovering electricity but he was way off the beam when it comes to a balanced budget. How could he have missed discovering that a budget, although 30 billion dollars in the red, is balanced if all the money you planned on coming in had come in?

Come on, Ben, everybody knows a penny saved is a monkey wrench thrown.

Yours faithfully,
J. A.

Mrs. Hunter To Chairman Cancer Drive

Mrs. LaFoy Patterson, Jones County Cancer Crusade chairman, has announced that Mrs. W. L. Hunter Jr. will serve as crusade chairman for Hamlin. The crusade is scheduled in April.

The house to house drive will be held Thursday evening, Apr. 20. Workers with the crusade urge people to support an organization which insures the donor his contribution is an investment in his own health.

"We are in a hurry now to make it possible to save more lives. Now we are saving one out of every three cancer patients, but the ratio could be one out of two. Financial aid is more necessary than ever," Mrs. Patterson said.

The Texas goal is \$4,000,000 for 1972. Mrs. Jim Lewis of Kerrville is state chairman.

Social Security Report Due On Earnings Soon

People who got at least one social security retirement or survivors check in 1971 and who earned over \$1,680 in 1971 are required to submit an annual report of their earnings to social security by April 17, according to James Smith, social security field representative who is at Hamlin, on March 28 at 10:00 a.m.

The key word is "earnings." Income from interest, dividends, royalty, other retirement plans, rent, etc., should not be included in the report of 1971 earnings and expected 1972 earnings according to Smith.

The annual report is used to determine if a beneficiary was paid the correct amount of cash payments last year. It's also used to adjust his monthly payments for this year according to his estimated earnings, the district manager said.

Beneficiaries who were over 72 during all months of 1971 do not need to make an annual earnings report, Smith said.

"There are monetary penalties for beneficiaries who file late or forget to file such an annual report, Smith said.

Annual report forms are now available at any social security office or by phoning (915) 677-5262 at Abilene.

Absentee voting Mar. 13-28.

All Motor-Powered Boats Must Be Registered Soon

AUSTIN — Some Texans have more to think about this month than auto licenses, inspections and income tax.

It's boat registration time. And this year more Texans than ever before are affected by registration laws, since all motor-powered boats will be operated on public waters must be registered.

Formerly, certain types of small craft were exempt from registration even though equipped with motors.

Texas Parks and Wildlife Department officials urge boat owners to get their boats registered as soon as possible if they haven't already done so. The deadline is March 31.

Boat owners who are renewing their registrations are being issued permits of varying duration in order to create a "staggered" system of renewals in the future.

Applicants with original

transactions, such as those with new boats, are not on the staggered system and will receive registration papers for a two-year period.

Applicants can expect to receive their registration papers and decals in two to two and a half weeks from the time of mailing, according to Clayton T. Garrison, department director of finance and data processing.

Department officials offer the following tips for getting boats registered with a minimum of effort:

—If you never registered the craft before, obtain application papers at a department district office or write to Austin headquarters. The district office can issue a temporary receipt when you pay the registration fee. Decals for your two-year permit will be sent to you by mail.

—If you want to renew a registration, you may have received a notice in the mail. If you did not, obtain one from district office or from Austin headquarters. Study the back of the form to determine the correct registration fee for your boat. Send the fee and application to Austin.

—Be sure your renewal form is a 1972 form.

—Try to get the application in soon, as March 31 is the expiration date on registrations of all boats which were currently registered as of Dec. 31, 1971.

Officials remind boat owners that the staggered renewal system creates a varied fee schedule, and most fees have increased as well. So be sure of the correct amount before sending in your payment with the application form.

Another reminder is to those whose boats did not have to be registered under the old system but now have to be registered: You should submit your application as soon as possible, since your craft was technically in violation of the law if it was not decalged by Jan. 1.

The decals which are to be placed on the boat are color-coded to indicate when the registration is to expire. Red decals indicate expiration in 1972, blue decals 1973, and yellow in 1974.

In addition, the month and year of expiration are printed on the face of each of the Texas-shaped decals.

Boat owners whose boats are registered under the new system also are scheduled to be notified by mail before the assigned expiration date.

GOODYEAR
THE ONLY MAKER OF POLYSTEEL TIRES

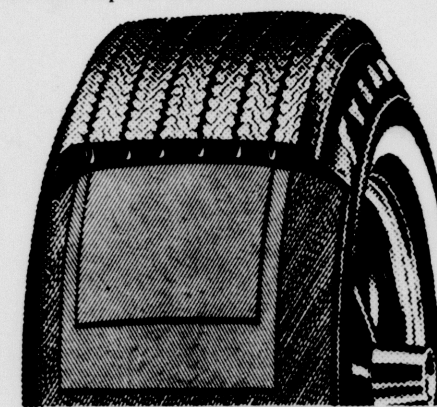

Here's steel cord belt strength with polyester cord smoothness, in a great long-wearing tire.

Goodyear builds it with two belts of steel cord for long-lasting resistance to impact and penetration. (You wouldn't run over steel drill bits the way we did here — but the demonstration illustrates how tough the steel belts really are.)

Then Goodyear makes the long mileage easy to take, with a flexible polyester cord body to soak up the shocks.

The brute strength of steel. The road-softening smoothness of polyester. Both in this superb new tire.

Use Our Rain Check Program: Because of expected heavy demand for Goodyear tires, we may run out of some sizes during this offer, but we will be happy to order your size tire at the advertised price and issue you a rain check for future delivery of the merchandise.

Hamlin High Happenings
Piper Patter

by Terri Casey
Shelley Holtz
Jimmie Bishop

Everyone in Hamlin is, I am sure, very proud of the track team capturing the first place title at Hale Center last weekend! I am sure they will rank high in district competition later on in the year.

This is National FHA Week. On March 11, Dana Knox, Kathy Ponder, Velanne Rowland, Latrese Williams, Luann Shira, Diane Ford, and Piper Willis attended the FHA Area IV Workshop at Stephenville on the campus of Tarleton State University.

Latrese Williams was elected on the state nominating committee; Dana Knox, as an area officer, decorated the stage for the meeting, took part in the opening ceremony, and presented the yearbook. Over 1500 girls attended the meeting on the Tarleton campus. Mrs. Carter and Mrs. Taylor accompanied the girls.

Karen Jackson and Terri Casey, members of the Hamlin High School Stageband, will travel to Denton Saturday to participate in the annual Texas Womens University All-Girl Stageband Festival. Girls from all over the state of Texas will play in this stageband; the rehearsing will be done on Saturday, and then Sunday afternoon there will be a concert. Clark Terry, a

distinguished musician on the Johnny Carson Show, will be the clinician for the all-girl stageband.

The student Council has decided to schedule many fun activities for the students. They have planned to have another balloon-throw, a spring picnic, and two assemblies. One assembly will be a comedy show similar to Hee-Haw, and the other will be a talent show featuring anyone in HHS who wishes to take part. The talent show will contain skits, singing, reciting of dumb poems or good ones, or any other form of talent that can possibly be thought up. There will be a Powder-Puff Football Game in April; the Freshman and Senior girls will team up against the Sophomores and Juniors. By sponsoring such fun activities the Student Council hopes to live up to the spirit in HHS and contribute to making HHS a more memorable place. Several members of the Student Council will leave Tuesday morning for the state meeting in Austin. Velanne Rowland, Piper Willis, Terri Casey, Frank Willis, John Howard and Rickey Gruben, accompanied by Mr. Wink, will spend three days in Austin to gather material to bring back to HHS for the Hamlin Student Council.

The Junior Play will be held Friday night at 7:30 in the Hamlin School Auditorium. The dress rehearsal was held last

Tuesday, and the matinee will be held this afternoon (Thursday) for the younger children. Members of the cast of "Lock, Stock, and Lipstick" are Ken Shira, Debbie Woolf, John Howard, Julia Farmer, Vickie West, Yvonne Houghton, Mike Herd, Terri Casey, Larry Jayroe, Kathy Ponder, Janice Hardy, Paula Herrera and Alan Walker. Georgia Deaton is the student director; Mrs. Carter and Mrs. Jayroe, Junior Class sponsors, have also helped to direct the play. Tickets, 50 cents for students and 75 cents for adults, may be purchased from any Junior Class member or at the door.

This year's Annual Meeting was dedicated to the memory of Elwood Carlson, who died August 10, 1971. Mr. Carlson was the last of the original Board of Directors, serving continuously for 32 years, the last two as Secretary-Treasurer.

Feature speaker, Bob Murphy, a practicing lawyer from Nacogdoches, entertained the audience with a continuing barrage of down to earth wit and country humor injected with his own personal philosophy.

Directors elected for three year terms were R. P. Nun-

department stores for showing their fashions; to the beauty shops for hair styles and make-up hints; to Winn's for the decorations; to McCoy-Foster Funeral Home for the grass; to the ladies who brought food and to the school.

We deeply appreciate all you do so that our club may plan these events. Again thank you! We still have plenty of cook books to sell, only fifty cents. Sincerely,
The Jaycee-ettes

Earnings Up
For First Half**

Sustained high levels of residential construction, coupled with upturns in non-housing related construction, resulted in a 32 percent increase in first half earnings of Jim Walter Corporation over year earlier levels, James W. Walter, chairman, announced recently.

Primary earnings per share for the first six months ended Feb. 29 rose to a record 94 cents from 71 cents in the same period a year ago.

Net income amounted to \$16.6 million versus \$12.8 million a year earlier, while sales and revenues climbed to \$360 million, also a record, from \$325 million in the first half of fiscal 1971.
